 - >High quality voice communication

LIP-8000 Line Up

Choice of IP phones for all business segments

Simple Entry LIP-8004D

LIP-8004D

Simple features for a entry level usage & the most affordable IP telephone

Target users

The LIP-8004 Phone is specifically designed for occasional users. It is also an affordable choice for common areas.

- . None communications-intensive office users
- . Reception lobbies and meeting areas
- . Manufacturing and retail floors

- . Affordable price offering for massive deploy
- . Simple to use features with fixed keys
- . User programmable 4 feature keys
- . Incoming CID & time display
- . Robust keyset designed for everyday usage
- . Automatic firmware upgrade from central system
- . Wall mountable without additional bracket
- . Single infrastructure over the network (Remote or local installation)
- . No external power supply required (802.3 af standard PoE supported)

LIP-8004D Detail Specifications

>Interface

- . 1 LAN (10/100 BASE T)
- . 4 Programmable buttons
- . POE(802.3af) or Local power feeding
- . Fixed feature keys DND, Speed, Volume Up/Down, Trans/Pgm, Hold/Save, Call back, OHD
- . Message Waiting Indication lamp

>Display

- . 1 Line LCD (1 * 16 Character)
- . English or Local language display

>IP Telephony

- . LG-Nortel iPECS Protocol
- . Multiple codec support(G.711,723,729)
- . Echo cancellation (VAD/CNG)
- . Static/DHCP IP address
- . QoS
 - Dynamic jitter buffering, 802.1P/Q, Layer 3 TOS, Diffserv
- . TLS W/AES-128 SRTP W/AES-128 Security

>Features

- . Speed dialing, Redialing
- . Call holding
- . Call waiting
- . Call park/Call pick up
- . Call forwarding
- . Conferencing call
- . Volume up/down control
- . Caller ID
- . Distinctive ring/Multi-ring
- . Multi-lines
- . And full system features

LIP-8012D

Everyday use business desktop IP phone provides the perfect combination of features and performance

Target users

Users have convenient single button access to call conferencing, call transferring, redial and call log lists with 12 programmable features Key.

- . Most office workers
- . Home office users

- . Standard business IP phone
- . Everyday use features with navigation keys
- . User programmable 12 feature keys
- . Enhanced quality conference call
- . Context sensitive 3 softkeys
- . High quality voice communication
- . 2nd hub port for PC connection
- . Professional headset integration via RJ11

LIP-8012D Detail Specifications

Certification: UL/FCC/CE/MIC

LIP-8000BTMU

- •Bluetooth headset profile support
- •Class 2 (4dBm Max) Bluetooth Module adapted
- •Bluetooth compliant: Bluetooth 2.0
- •Up to 10 meters(30 feet) range*
- •Application features* : Call answer/end, Volume control.

Audio connection transfer

^{*} Depends on the user's equipment and work environment.

WIT-300HE

Cutting edge business mobility solution

- >IP-centric single infrastructure with easier moves, adds, changes
- >On the road mobility
- >Plug n Play single cell users
 - . Typical remote phone solution
 - . Industry standard 802.11b/g AP
- >Multi cell environment with seamless handover
 - . Wireless LAN controller recommended for seamless handover
 - . Business grade AP for robust system connection during handover

: Cisco Aironet 1200 series recommended

WIT-300HE

Full feature system Wireless IP Phone

- >Full system feature supported
 - . Fixed feature keys : Hold/Save, Trans/PGM
 - . Soft menu keys and flexible button assignment
- >802.11b/g compatible
- >User friendly GUI with 1.5" 65K CSTN color LCD
- >Standby time 40hrs / Talk time 3.5hrs
- >WEP 64 & 128 bit password encryption
- >2.5mm ear mike jack

Target customer

- . Road warriors
- . Home office
- . Field workers
- . Warehouse

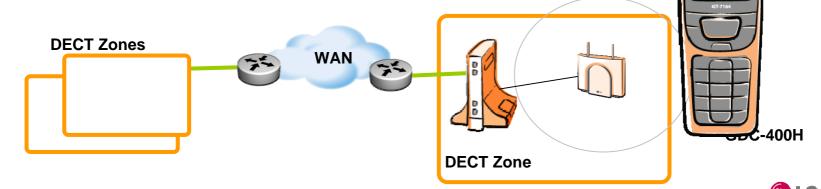

- . In house & on the road mobility
- . Leveraging single infrastructure
- . Plug n play installation
- . Common use of AP

Cost effective mobility solution

- >Full system feature supported DECT terminal
- >Traditional DECT technology over network
 - . IP to DECT base wireless GW & controller (WTIM)
 - . Using existing DECT base(GDC-400B)
- >Cost effective by leveraging existing DECT infrastructure
- >Seamless handover within same zone
- >Automatic handset roaming over the network
- >Remote installation over the network
 - . Remote WTIM cabled from DECT base station

User friendly system DECT handset

- >Mobile like user interface
 - . Easy menu access via navigation key and softkeys
 - . Feature rich 1.5" full color LCD
- >Multi language menu support
 - . English, Italian, Russian, Spanish
- >Differential ring tone up to 9 per external/internal
- >Vibrator & Ring LED
- >Backlit for LCD and keypad
- >Standby 150hrs / Talking 15 hrs
- >2.5mm ear mike jack

Target customer

- . Secretary
- . Very small business
- . Field workers
- . Warehouse

- . Cost effective mobility solution
- . In house mobility
- . Leveraging existing infrastructure
- . Multi site mobility
