2. Group Pickup Key Flash

- There is no additional configuration for Group Pickup Key Flash compared to existing Group Pickup Key.
- The Operation
 - The Key Flash is working only for Group Pickup key and My Group Pickup key.
 - The Pickup Key flashes when there is a call which can be picked up.
 - When the call is answered or canceled, the flash is stopped.
 - The operation except flash don't have any change.
 - If there is any change of Pickup Group Configuration, all key flashes are cleared. The key flash is working again for the new call.
